This unit contains 4 Acolyte Hybrids and 1 Acolyte Leader. It may include up to 5 additional Acolyte Hybrids (Power Rating +5), up to 10 additional Acolyte Hybrids (Power Rating +10) or up to 15 additional Acolyte Hybrids (Power Rating +15). Each model is armed with an autopistol, cultist knife, rending claw and blasting charges.

Cultist knife	Melee	Melee	User	0	1	-	Roll a D6 each time a model (other than a <b>VEHICLE</b> ) suffers damage from this weapon; if you roll higher than the model's remaining number of Wounds, it is instantly slain.			
Heavy rock cutter	Melee	Melee	x2	-4	2	-	Roll a D6 each time a model suffers damage from this weapon; on a 2+ the model suffers a mortal wound, and you can roll another D6. This time, the model suffers a mortal wound on a 3+. Keep rolling a D6, increasing the score required to cause a mortal wound by 1 each time, until the model is slain or the roll is failed.			
Heavy rock drill	Melee	Melee	x2	-3	1	-	If the bearer is slain in the Fight phase before it has made its attacks, leave it where it is. When its unit is chosen to fight in that phase, the bearer can do so as normal before being removed from the battlefield.			
Heavy rock saw	Melee	Melee	x2	-4	2	-	Each time you make a wound roll of 6+ for this weapon, that hit is resolved with an AP of -4.

The attack is resolved as a normal trigger attack (although it is resolved in the loading phase) and uses all normal rules, except that a non-modified impact roll of 6 is always required to have success, regardless of the ability Ballistics of model shooting or any impact roll modifier. To do this, he pulls a D6, adding 1 to the result if that character model is a patriarch model: with a 4+, the test is exceeded and that character model does not suffer. If your unit is making attacks with more of a body-to-body weapon against a unit, and those weapons have different profiles of characteristics, then after having resolved an attack with one of those weapons you owe, if any other Weapon with the same feature profile is also being used to make attacks against that unit, solve those attacks before resolving any attack on the target with a different characteristic profile. The Patriarch keyword is used in the following cards of the gene-stealer cults: the BROODKIN of the Genestealer Cults are as fanatically loyal that they do not hesitate to sacrifice themselves to protect their leaders. Each time you fail a salvation roll performed by a model of Character of your army, you can select another friendly model of or Brood Brothers with this ability to 3 "or less of that character of Character and perform an unquestionable loyalty test. A unmodified roll of 1 It always fails. If a model has acquired such a bonus (to its saving, leadership or other features), it is considered to receive the benefit of coverage. The height of a land feature is measured from the highest point of that trait . If this is impossible, the load fails and no model of the load unit moves in this phase. In the same way, if after having calculated all the modifiers es es ,roirepus o 2+ ed areuf latot rodacifim le .otcapni ed adarit anu a Changed to be +1. In addition, when a model burns overheater, it does it in the load unit. If not, the attack fails and the end of the attack sequence. If you do an attack with a weapon that has a skill that tells you that A e a . ~ "hits the target", it is not hit by blow; that attack simply punctuates one to hit the target unit. A wound roll does not Modified 6 always lights the goal, and a non-modified 1-modified roll of 1 always fails. There are ways that some models ignore such bonuses while performing an attack, but it should be known what kind of benefit is ignored ( Consult the rare clarification rules). A unit can not shoot or try to manifest a psychic power with the same turn that fell unless it is tita. Similarly, yes, after all cumulative modifiers are calculated At a wound roll, the total modifier would be +2 or better, it is changed to being +1. The keywords of Cog and Biker Bladed are used in the following GENESTEALER Cults data sheets: Each unit has a power rating in the list of data, and is a measure of its effectiveness in the battlefield. You can increase the power capacity of a unit if additional models are added to the unit, and occasionally, if other options are taken for the unit (such as equipping a unit with jump packets), in any case, the data sheet of The unit will clarify it. If the power capacity listed at the top of the data sheet increases as a result. For example, if the weapon has an AP of -1, then 1 is subtracted from the savings roll. Enemy models can not be configured or move within 9 "from the center of any of the labels of their ambush. Then, this unit is configured underground, then in the reinforcement step of one of the phases of its movement, can configure this unit under one of the Conditions: You can configure this unit anywhere in the battlefield that is more than 8 "away from any enemy model. You can configure this unit anywhere in the battlefield that is more than 6" 6 " From any enemy model, but that unit is not eligible to declare a position to this turn. If a configured unit, underground, has some skill that are used in your command phase (for example, a meticulous planner), then the first time the unit is configured in the battlefield, you can use any or all skills as if it were the phase of your command. It is considered to be established on the ground floor in a location other than the battlefield, therefore, this must be determined in the declaration declare reservations and transports Step of a mission sequence that includes such a step.Realing Ambush Markersin In the first round of battle: If you have the first shift, you must disclose all your labels as an ambush at the beginning of your command phase. If you do not have the first shift, you must reveal all your ambush markers at the end of your movement phase of your opponents. To disclose an ambush marker, select a unit of your army that was configured in the ambush and even has not been established from an ambush marker: Set one model of that unit within 1 "from the center of that ambush marker, Totally within its deployment zone and more than 9 "away from any enemy model. When a unit makes a normal movement, each model can move a distance in inches equal to or less than the movement characteristic (M) shown on its data sheet, but no model can be moved within the range of commitment of enemy models. Each model in that unit can move a distance in inches equal to or less than this total, but no model can be moved within the participation range of enemy models. If the result of the success roller is equal to or greater than the Balibestic skill feature (BS) of the attack model (if the attack is being done with a gun at a distance) or its ability 2.2 :sotad ed sajoj setneugis sal ne adazilltu remalF onam .allatab ed opmac led n'Aicnuf amsim al netrapmuc euq relatseneG ed sotluc ed sedadinu sal ed atelpmoc atsil .ovitejbo dadinu al artnoc eplog nu a^Atnup euqata ese secnotne .Jopreuc a opreuc amra nu noc ohech dneis se euqata le is(acitsAretcarac )SW( amra .euqata ese artnoc atreibuc al ed soicifeneb sol ebicor on ovitejbo le .ovitejbo omoc ^Anoicceles es odnauc" 21 sol ed ortned abate y .ovitejbo omoc ^Anoicceles es odnauc osupxe es .odazurc ogeuf ed rodacram IE nu eneit ovitejbo dadinu al is ,aicnatsid a euqata nu ecah odazurc ogeuf ed oledom nu euq zev adaC .euqata ese ed adireh al ed arudador al a 1 eugerga .)ojaba sjAm rev ovitejbo omoc ^Anoicceles es odnauc osupxe es y odazurc ogeuf ed rodacram nu eneit ovitejbo dadinu al is ,aicnatsid a euqata nu ecah odazurc ogeuf ed oledom nu euq zev adaC .euqata ese ed ollor al a 1 eugerga .odazurc ogeuf ed rodacram nu eneit ovitejbo dadinu al is ,aicnatsid a euqata nu ecah odazurc ogeuf ed oledom nuU .hcaelloC ssorC ssorc ed sotceE.neneit sagimene sedadinu saL odazurc ogeuf ed serodacram sol sodot evemU er .orrit us ed lanif le ta.tih nu ^Atona 1 ed atitnsid oe^Aad ed acitsAretcarac anu noc seuqata sose ed sjAm onU .tih nu noratona seuqata sose ed sjAm o ocmC :senoicidnoc setneugis sal ed anugla ^Alipmuc es is odazurc ogeuf ed rodacram nu anag ovitejbo le .seuqata sose revloser ed s^Aupsed .odazurc ogeuf ed rodacram nu nis agimene dadinu anu a nesgrid es seuqata sose sodot is ,rarapsid arap odazurc ogeuf ed dadinu anu anoicceles es euq zev adac ,orit ed esaf uS nisrekraM erifssorC .salger setneugis sal nacilpa es y diadicapac atse rasu edeup dadinu atse .otluc onsim la econetrep otluc nu a econetrep euq oticr^Aje us ed dadinu adac y .Aueq nacifcepse es euq aArc al ed sonamreh sol ed sedadinu sal ed lautnecrop n'Aicaler al y sadaenila on sedadinu sal odneuyuxef olatseneg led otluc ed evalc arbalap al eneit oticr^Aje ut ed dadinu adac is .solucAhev y samra ed ditrus us asnepmuc euq sjAm selatseneg satsillic sol ed anamuhni n'Aicandiroc al :sotad ed sajoj setneugis sal ne asu es euq ogit;Al a otluc :sotad ed sajoj setneugis sal ne odazilltu otluc ed onocl .SOTAD ED SETOOH SETNEUGIS SAL NE ODAZILLTU ES SOGRAC ED SOGRAC otse otse is ) n^Aicainnoc a samargaid sol ne artseum es omoc oledom ese arap elbisiv aes euq osotsima odazurc ogeuf ed dadinu arto ne oledom nu ed Jocas: o( esab al ed etrap reuqlauc a etnacata odazurc ogeuf ed dadinu al ne oledom nu ed Jocas: o( esab al ed etrap reuqlauc edsed aenAl nu ajubid ,ovitejbo dadinu anu enopxe es is ranimreted a y etnemlatnozihro" 1 ed ortned jAtse oledom nu euq sartneim .Etmედurpmi etnemelpmis se ,ocnalb ne sotnup ed ognar le ne sovisolpxe otla a odnarapsid ,ourtsnom nu o olucAhev nu se orapsid ed oledom le is o alotsip ed opit le eneit amra al is osulcni .n^Aiccoc ed oledom led dadinu al. al ed osimormpoc ed ognar led ortned jAtse euq dadinu anu artnoc seuqata reach arap rasu nedepu es acnun samal ne samra saL .dadinu ase artnoc seuqata sies ecudorp amra ase .suledom sjAm o 11 eneit euq dadinu anu a egirid es n^Aisolpxe ed alger al noc 6D adanarg ed amra anu is ,olpmeje roF .allatab ed opmac le ne odacoloc ayah euq setnatser adacosome ed serodacram sol nenimile ,adacosome ed rodacram nu edsed odicelbatse nah es adacosome al ne noraerc es euq oticr^Aje us ed sedadinu sal sadot euq ed s^AupseD .amra ese ed seuqata sol revloser la eplog ed sollor ed ritrap a 1 ^Atser .odaznava ah dadinu us euq le ne orig onsim le noc otlassa ed amra nu arapsid oledom nu is .osimormpoc ed ognar led ortned sagimene sedadinu yah is sorapsid ed oscece le rarapsid edeup on dadinu anU .ograc us ed ovitejbo nu nare on euq sedadinu .ogimene n^Agnin ed osimormpoc ed ognar led ortned esrevom nis .agrac us ed ovitejbo nu euf euq dadinu adac ed

If each model in an infantry unit is on or at a terrain function of the area with this feature, then it can be kept firm or you can configure to defend (see below) when an enemy unit declares a load against it. If each model in a one unit is within 3" of an Obstacle terrain feature with this trait, then it can either Hold Steady or it can Set to Defend (see below) when an enemy unit declares a charge against it if, were you to draw a straight line, 1mm in thickness, between the closest parts of the bases (or hulls) of the two closest models in the two units, that line would pass over or through that terrain feature.A unit cannot Hold Steady or Set to Defend while it is within Engagement Range of any enemy units.If a unit Holds Steady, any Overwatch attacks made by that unit this phase will score hits on rolls of 5+. Grenades are handheld explosive devices that a warrior throws at the enemy while their squad mates provide covering fire.When a unit shoots, one model that is equipped with a Grenade in that unit can resolve attacks with it instead of shooting any other weapons. Any rule that states the unit cannot be targeted unless it is the closest target (e.g. Look Out, Sir) does not apply when firing Overwatch. If a unit makes a Normal Move, Advances or Falls Back, and any of its models wish to move over any part of this terrain feature, subtract 2" from the Move characteristic of every model in that unit (to a minimum of 0), even if every part of this terrain feature is 1" or less in height. Each time any other GENESTEALER CULTS unit from your army summons the cult, D3 destroyed models can be added back to that unit with their full wounds remaining. The result required is determined by comparing the attacking weapon'sÁAs Strength (S) characteristic with the target'sÁAs Toughness (T) characteristic, as shown on the following table:If the result of the wound roll is less than the required number, the attack fails and the attack sequence ends. Note that all the attacks you have declared are always resolved against the target unit even if, when you come to resolve an individual attack, no models in the target unit remain in range (this can happen Of the models that are destroyed and eliminated from the battlefield as a result of solving other attacks made by the unit of the attack model first). The keyword of Neophyte hybrids is used in the following Gestaler culture data sheets: Acolyte iCoward keyword is used in the following genes of genetaler cults: even when battle angers, reinforcements are Slide from the shadows or spill from the dark places below, called the war by the Broodmind. Each time a hybrid neophyte unit of its army calls the cult, the models destroyed D6 can be added back to that unit. The rank of commitment represents the area of threat that the models present their enemies. Some models have a invulnerable salvage. Choose what you will shoot (pistols or non-pistols) before selecting the objectives. This is the maximum number of inches, each model in the load unit can now be moved if they can cause the load to move. You make a roll of blow to make each attack. The number of attacks that makes a model with a gun is equal to the number written in the profile of that weapon after its kind. If a unit is set to defend, it can not burn excess speed this phase, but adds 1 to hit the rolls by solving attacks made with body-to-body weapons by models on that unit until the end of the next phase of struggle. Unlike the damages inflicted by normal attacks, the excess damage of mortal wounds is not lost. If a unit could convene the worship more at once (for example, a unit equipped with a cult icon is also in the scope of a nexus of the devotional capacity of an iconward), the results are cumulative The target unit is exposed if the following two conditions are met: that the line onerret onerret ed acit'sÁretcarac anu is osulcni adigirid res aÁrdop n'Áa ovitejbo dadinu al o ,onerret led n'Áicnuf ase ed ortned o saddinecne n'Áise ovitejbo dadinu al o odazurc ogeuf ed sedadnu sase euq sonem al ogsaR othico onerret le noc onerret ed acit'sÁretcarac anu ed aminec rop asap on aenÁ atSE ,onitised ed dadinu al ne soledom sÁAm o onu ed Jocsac of esab al ed etrap reiuiqlauc erbos the Obscuring terrain trait was between it and an attacking model, e.g. it is an AIRCRAFT unit, it has a Wounds characteristic of 18 or more, etc.)The CORE keyword is used in the following Genestealer Cults datasheets:The HIVECULT, CORE and CROSSFIRE keywords are used in the following Genestealer Cults datasheets:The HYBRID METAMORPHIS keyword is used in the following Genestealer Cults datasheets:The REDUCTUS SABOTEUR keyword is used in the following Genestealer Cults datasheets.The GENESTEALER CULTS and CORE keywords are used in the following Genestealer Cults datasheets: If the result is equal to, or greater than, the Save (Sv) characteristic of the model the attack was allocated to, then the saving throw is successful and the attack sequence ends. The target(s) of this charge do not need to be visible to the charging unit. Instead, keep allocating damage to another model in the target unit until either all the damage has been allocated or the target unit is destroyed.If an attack inflicts mortal wounds in addition to the normal damage, resolve the normal damage first. The bearer can only shoot with each demolition charge it is equipped with once per battle. Assault weapons fire so rapidly or indiscriminately that they can be shot from the hip as warriors dash forwards into combat.If a unit includes any models equipped with Assault weapons, that unit is still eligible to shoot with in your Shooting phase even if it has Advanced this turn, but you can only resolve attacks using those Assault weapons when you select that unit to shoot with. However, no more than 6 models can be added back to a NEOPHYTE HYBRIDS unit per turn, and no more than 3 models can be added back to any other GENESTEALER CULTS unit per turn. If this unit is an INFANTRY or BIKER unit, you can set up this unit underground instead of setting it up on the battlefield or in ambush.AmbushIf you set up this unit in ambush, place an ambush marker on the battlefield that is wholly within your deployment zone.Units set up in ambush are considered to be set up on the battlefield (unless they are embarked within a TRANSPORT model that is set up in ambush), even though their models are not actually on the battlefield. You then make a charge roll for your unit by rolling 2D6. Each mortal wound inflicts 1 point of damage on the target unit, and they are always applied one at a time. If a model has more than one melee weapon and can make several attacks, it can split them between these weapons however you wish cÁÁÁ declare which attacks are being made with which weapons before any attacks are resolved. Instead, the friendly model you selected is destroyed and the attack sequence ends.Cult bonesword used in the following datasheets: Some weapons have cÁÁÁBlastcÁÁÁ listed in their profilecÁÁÁs abilities. This means that if, after all the cumulative modifiers to a hit roll have been calculated, the total modifier would be -2 or worse, it is changed to be -1. In addition to the normal rules, the following rules apply to Blast weapons:If a Blast weapon targets a unit that has between 6 and 10 models, it always makes a minimum of 3 attacks. So if, when determining how many attacks are made with that weapon, the dice rolled results in less than 3 attacks being made, make 3 attacks instead. Do not make a wound roll or saving throw (including invulnerable saves) against a mortal wound cÁÁÁ just allocate it as you would any other attack and inflict damage to a model in the target unit. These modifiers do not apply if every model in the moving unit can FLY. For example, a model shooting an cÁÁÁAssault 1cÁÁÁ weapon can make one attack with that weapon; a model firing a cÁÁÁHeavy 3cÁÁÁ weapon can make three attacks, and so on. The weapons a model is equipped with are described on its datasheet. Each model must finish its Consolidation move closer to the closest enemy model. OTHER Its command phase, if this unit contains a model equipped with a worship ", can call the cult. In your command phase, if this unit contains a model equipped with a cult icon, you can summon the cult. Cultivation of the beats of the beating of the crop. The bearer makes a melee attack against a unit (excluding a monster or vehicle unit), it can rolled back the blow. The Beer's beat ghost time makes a melee attack against a unit (excluding a monster unit or vehicle), it can rolled the blow again. Each model is equipped with: autopistol; claws of worship and knife; blasting charges; Grain of fragments. A unit can not declare a load with the same turn that fell.
